Rebate Eligibility Requirements

Rebates are available for qualifying replacement windows installed after October 1, 2011 and completed and passed inspection by September 30, 2012. Only replacement windows that have been approved in writing by a Weatherwise Service representative qualify for a rebate.

Service Requirements: Your home must currently be served electricity by the City of Port Angeles and have any type of electric heating equipment capable of heating your building. The existing windows or doors must be: single pane, single pane with a storm window, or double pane with metal frame. To qualify the building must have a certificate of occupancy issued prior to January 2008. A building with any type of electric heating equipment with a fireplace, fireplace insert or wood stove qualifies. A building with a non-electric heating system (oil, propane, etc) and any type of electrical heating equipment qualifies; however, removal of the non-electric heating systems is required. Basements heated by an electric heating system and by no other non-electric space heating equipment qualify.

City Authorized Contractors: City Authorized Contractors have entered into an Agreement with the City. City Authorized Contractors have a State contractor's license and bond. The City does not recommend one contractor over another. The City does not endorse any materials or products.

Before selecting a contractor, customers may request and check references from the contractor. Customers may check with the Better Business Bureau at 206-431-2222 or <http://alaskaoregonwesternwashington.bbb.org/>

Window Notice: Only windows with a certified National Fenestration Rating Council (NFRC) U-value of 0.30 or lower qualify for a rebate from the City. Windows must be properly installed according to the window manufacturer's installation instructions and in conformance with the City's Weatherization Material and Installation Specifications. All window installations must be completely installed and provide a complete weather barrier. It is the Owner's responsibility to contact and be aware of City Building Safety & Inspection Division and International Building Code requirements for safety glass, egress, etc.

Door Notice: Only glass doors with a certified National Fenestration Rating Council (NFRC) U-value of 0.35 or lower qualify. Doors must be properly installed according to the door manufacturer's installation instructions and in conformance with the City's Material and Installation Specifications. All door installations must be completely installed and provide a complete weather barrier. It is the Owner's responsibility to contact and be aware of City Building Safety & Inspection Division and International Building Code requirements for safety glass, egress, etc.

Weatherization Material and Installation Specifications: A complete copy of the City's Weatherization Material & Installation Specifications is available on the *CONSERVATION* pages of the City's website www.cityofpa.us. You can also request a copy on the Conservation phone line at 360-417-4713.

Inspection notification: All window and door installations must satisfactorily pass inspection by a Weatherwise Service representative prior to rebate payment. The manufacturer provided NFRC sticker must remain on each window until after inspection. All installations may include an additional inspection by a Bonneville Power Administration Representative.

The Owner(s) read, understood and agreed to comply with the Rebate Application and the City's Material & Installation Specifications. By signing below the Owner(s) certifies the information provided in the application is complete, true, and correct.
