THE HISTORY

The land for Ocean View Cemetery was acquired from the Federal Government largely through the efforts of Mrs. Matilda C. (Dudley) Cooper. Mrs. Cooper started a petition in the early 1890s to secure land for the City to use as a cemetery.

A resolution was passed by the City Council requesting a patent conveying title to said lands to the city. It was signed on June 24, 1895, by President Grover Cleveland's secretary and recorded April 28, 1900, by City Clerk J.A. Smith with the County Auditor.

In 1895, the 54-acre cemetery was ready for business. Thus, the City Council directed the "City Clerk be authorized to have published a notice, notifying those who have deceased friends and relatives buried on private property in various parts of the city, and also in the Old Cemetery, that the City Cemetery, known as Ocean View Cemetery is now ready for burial purposes."

This old cemetery provides a detailed look at the social, ethnic, cultural, and economic styles of the past.

Memorialization in cemeteries reflects the wish to remember and to be remembered. Ocean View Cemetery provides a feeling of contact with past times and people. It is evident that today's cemeteries will be such a resource for future generations.
