file no.

A Boundary Line Adjustment (BLA) is used to apply boundary changes in order to rectify an existing property constraint or issue. For more info, see Port Angeles Municipal Code Chapter 16.12 - Boundary Line Adjustments for more information.

BOUNDARY LINE ADJUSTMENT CHECKLIST

A Boundary Line Adjustment may only be processed if the following criteria are met:

- The BLA does not create a new lot, tract, parcel, site, or division of land
- The BLA does not create a lot with insufficient area and dimensions
- The BLA does not create a non-conforming situation that did not exist previously
- The BLA does not increase or intensify the degree of non-conforming structures, lots, or other
- The BLA does not evade requirements associated with the subdivision, redivision, or distribution of land

REQUIRED MATERIALS CHECKLIST

A complete BLA application will be determined complete when the items listed below are submitted to the Department of Community & Economic Development. After an application has been determined to be complete, the City will provide a written response to the application within 20 working/business days.

- BLA Application:** A completed and signed application
- BLA Narrative:** A description of the requested BLA and the reason for the adjustment
- Scaled Drawing:** 2 copies of scaled drawing on paper no smaller than 11" x 17"
 - Scale drawings must include the following information:
 - Existing and adjusted location of lots/parcels lines
 - Dimensions of all lot/parcel lines before and after adjustment
 - Location of existing and proposed buildings, with setbacks and distances from property lines
 - Property identification (i.e. address, legal description, parcel number)
 - Location of any and all existing and proposed easements
 - Location of public and private streets
 - Location of existing and proposed access and egress
 - Location of existing and proposed utilities (Water, Waste Water, Electric, Stormwater)
- Digital Copy of Scaled Drawing:** Provide a digital copy of the scaled drawing

RECORDING

A survey shall be prepared and recorded with the Clallam County Auditor's Office on an 18-inch by 24-inch reproducible mylar. Full surveys are not required for boundary line adjustments when a single property line is involved. The mylar shall show property lines and dimensions, showing the new corners as staked on the ground, building locations, location of easements, and public and private streets. The mylar shall also contain signatures of all property owners and signature blocks for the Community and Economic Development and Public Works and Utilities Directors. A copy of the recorded survey shall be provided to the Department of Community and Economic Development.

In order to ensure that the adjustment does not create an additional lot, the following wording shall be included on each deed filed as part of the adjustment: "This conveyance is for the purpose of accomplishing a boundary line adjustment pursuant to RCW 58.17.040(6). It shall not create any additional lots, tracts, parcels, or division. Rather, the land described herein shall merge or be integrated into abutting property presently owned by the grantee(s)."
